The Training

Do you know these meetings where 20% of the participants use 80% of the time? And all the others are leaning back and switching off?

By using LEGO® SERIOUS PLAY® these meetings are changed completely: 100% of the participants are engaged 100% of the time. This helps to unlock knowledge of the participants and to break habitual thinking. Participants go deeper and broader in less time, they take faster and better decisions. Hence the meetings are more effective for everyone.
